Our all-natural Magical Dough is batch made in California and artfully jarred by hand. We started making dough jars from our home in 2020 to help entertain kids and give parents a much needed break during the pandemic. After trying our dough jars, parents exclaimed, "This jar is magic!". They love how it entertains their child for hours on end, stays super soft and outlasts other sensory products. From then on, "Magical Dough" was born, and the rest is history!

Product Line:
