YOMEGA.COM

From the beginning, we imagined a yoyo that would take the frustration out of learning the basics. We first introduced The Yo-Yo with a Brain® and like magic, kids found excitement and satisfaction in making their yoyo "sleep" and return to the hand automatically! Yomega continued to invent...the Fireball®, the Raider® and yoyos at all skill levels so that kids, and kids at heart could progress at their own pace. Today, Yomega continues to invent, inspire and delight. Best of all, kids can step away from their TV's, Cell phones, and electronics and discover the joy of learning the art of yoyo play.
